

E10 PTS

PLC Training Station

Ideal for:

Small projects
Industrial emergencies
Robotics
Replacing timers
Replacing counters
Replacing ladder logic
Y - Δ Motor starting

Either you are an experienced PLC programmer or a novice you will enjoy to see your applications working in just minutes.

First simulate your project on a computer, then wire the devices to the external connectors and perform a real test.

That's an amazing automation experience!

Our PLC Training Station has been carefully designed to allow the following advantages :

- Small size and weight.
- Extremely low cost
- Portable
- Easy to use
- Industrial use
- Educational

Hardware

- PLC with 6 inputs / 4 outputs.
- 90 Programming steps
- 4 Timers
- 4 Counters
- 1 Sequencer of 32 steps
- 8 Internal relays
- 2 Internal outputs.
- Password protection.
- 4 Jumbo Indicating LEDs
- 2 Push buttons
- 4 Switches
- Protection fuse
- Fiberglass base
- 110 \pm 10%VAC connection.
- Connectors to interact with the real world.
- ON/OFF switch
- 24VDC and 110 VAC supply available on connectors
- RS232C serial connection cable

Software

- Our awarded programming software TRiLOGI.
- Simulator Tools
- Includes other PLC models
- ON - LINE monitoring.
- Works in DOS.
- No specific computer requirements
